

## Passenger activity at John Wayne Airport increases 21% since 2010

- 2016 marked the fifth consecutive year of rising passenger activity at John Wayne Airport, with a total of 10,496,511 passengers for the year.
- Popular vacation destinations appealing to tourists and a strong business climate attracting corporate travelers are helping drive passenger growth.
- John Wayne Airport has a significant impact on the local economy, including jobs, hotels, retail, restaurants, and entertainment, while also proving to be a draw for companies to have operations in Orange County.
- Actionable takeaway: August saw the largest number of passengers (936,059) in 2016 and February had the smallest (768,864), so plan accordingly.
