

MISSION PATHWAYS
Enterprise Edition

SOFTWARE BUILT FOR YOUR DIOCESAN MISSION

Mission Pathways Enterprise Edition is a digital platform with a purpose: to equip dioceses to manage and track apostolates, view staff and volunteers across organizations, communicate effectively with apostolates and their members, and track notes across the system. Use this software as your CRM for effective evangelization and discipleship implementation across your diocese, parishes, schools, or programs. Replace your sticky notes, excel spreadsheets, and countless contact lists with Mission Pathways Enterprise Edition – the solution that empowers you to stay organized and manage relationships effectively as you build God's kingdom and inspire transformation.

- **Support your parishes as they implement evangelization and discipleship plans.**
- **Promote communication and foster collaboration across your diocese.**
- **Keep track of key information, team members, and their goals.**
- **Save time as you empower your staff to work together on key priorities**

A CATHOLIC COMPANY HONORING CATHOLIC VALUES.

CONNECT AND COORDINATE ACROSS ALL ORGANIZATIONS

Customize relationship structures to meet the unique needs of your diocese

With completely flexible parent/child structures, you can setup the connections between your diocese and vicariates/regions/parishes/clusters/missions/etc. in entirely unique ways.

Assign "areas of focus" to apostolates to systematically track progress

Designate organizations by standards that you set, categorizing them to help you stay focused on key initiatives, steps, or stages. Users can mark organizations as "Running Alpha," "New Pastor," "New Ministry," etc.

View staff and volunteers across all organizations in one place

Staff and volunteers populated in your parishes/organizations' Mission Pathways accounts will auto-populate in the Enterprise Edition; Additional staff and volunteer information can be manually populated by diocesan staff.

Track notes across your apostolates, all in one system

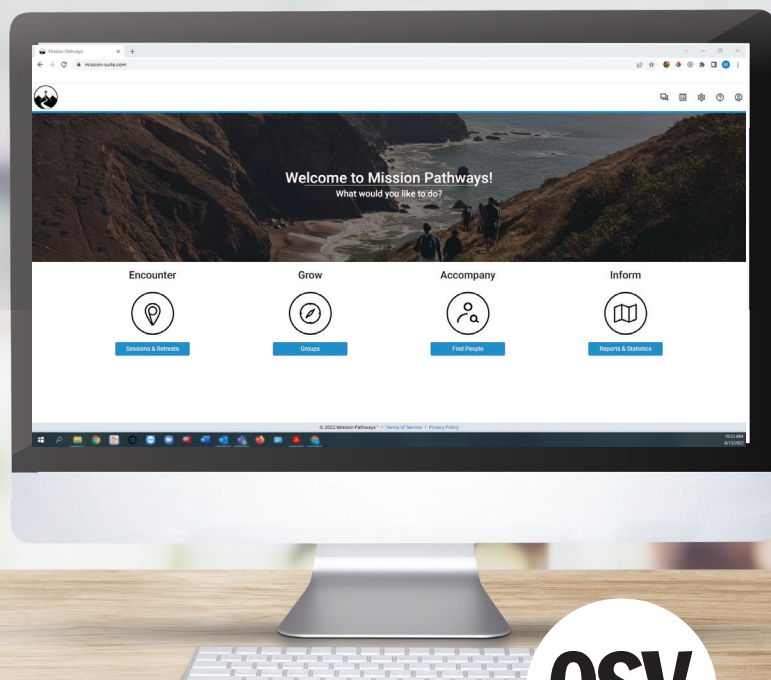

Notes in Mission Pathways Enterprise Edition are all about organizational interactions. Visible to all Enterprise users, you can associate notes to multiple apostolates and assign or reference topics, ministries, and key staff to notes to add context and make them searchable.

Communicate effectively with your organizations and their members

Both the Enterprise and church editions of Mission Pathways offer essential communications features like email and text messaging to help you stay in touch with your organizations and members. All communications are logged for easy access.

MISSION PATHWAYS EXISTS TO IGNITE PARISH RENEWAL

Our team has a combined experience of over 50 years serving the Catholic Church through technology. We are active in evangelization and discipleship at our churches, sit on our churches' leadership boards, and work with organizations at the forefront of evangelization. We are passionate about supporting you in building missionary disciples who provide increased time, talent, and treasure to your parish.
